FOR IMMEDIATE RELEASE

Traffic Signalization Project to Begin in Millbrae at Millwood Avenue and El Camino Real

San Mateo County- The California Department of Transportation (Caltrans) will begin work on a Traffic Signalization Project at the intersection of El Camino Real and Millwood Avenue (post mile 17.0) in the City of Millbrae, beginning the week of December 14, 2015, (weather permitting). This work will require lane closures on El Camino Real.

The contractor will begin construction on Monday, December 14, with crews performing electrical work, drainage work and potholing. Crews will close one lane along El Camino Real between the hours of 7:00 AM to 5:00 PM, Monday through Friday. Intermittent lane closures will be in effect on El Camino Real in the northbound and southbound direction.

This project will include a left turn lane onto Millwood Drive and (American Disabilities Act) ADA compliant improvements to pedestrian curb ramps.

Construction signs are posted to warn motorists of the construction zone.

NOTE: Residents may notice increased noise from equipment and mandatory backup alarms while the contractor is working in the construction zone. Construction could include some night work.

This project is scheduled for completion in January 2016.

Schedule is subject to change due to weather conditions and/or sequencing of work.
